

Accounting, Auditing, Tax and Advisory Services for **Medical Practice Businesses**

Medical Practice Business Group: An Overview

As CPAs, business advisors, and valuation experts, our Medical Practice Services Group is grounded in over 25 years of deep expertise in business strategy and operations, financial systems, accounting and audit, taxation, M&A, and valuation. We guide you through a detailed review of all the factors that affect practice performance—from competitive analysis, strategic planning and forecasting—to restructuring or sale of the practice. By focusing on wealth creation at all stages of your practice life cycle, we offer many levels and types of business resources, such as:

- An empirical method for quantifying net profit per patient service;
- Modernized billing systems;
- Corporate tax strategies and reporting;

Our experts offer you the most practical, cost-effective, and innovative solutions. And we keep you regularly informed about the latest industry, risk, and business developments that will affect your practice's long-term financial health. Moving you to the next level.

When it comes time to restructure, merge, or sell, RBB takes a hands-on, proactive role on your behalf. We pay special attention to the things that concern healthcare professionals during periods of change:

- Creating realistic job descriptions, relocation analysis, and attractive compensation/bonus plans
- Structuring equity interests for a transaction or for growth
- Valuing the practice
- Developing funding strategies for the deal at hand and for buy/sell agreements for the future

Let us be your business healthcare provider. That way, you and your patients can enjoy the benefits of both profitability and compassion. . . as it should be.

But that's only a part of the story. For a more specific description of these and other accomplishments on behalf of our clients, please call:

Bill Rucci, CPA, MST or Mark P. Paquin, CPA, ABV at 781.321.6065.
